

EDISON K8: 1st Grade Learning Goal

All students will make at least one year of growth in reading.

At School

- Teachers will use data to determine the reading needs of students and inform instruction
- Teachers will group students for optimal reading growth and use relevant specific strategies for each group
- Teachers will initiate a home-school connection to reading with the implementation of reading logs with guided questions

At Home

- Students should be reading at home every single night! Look over the nightly reading log together
- Ask your child to tell you about their books! Who is the main character? What is your favorite part of the story?
- Spend time together discussing topics your child is interested in learning more about. Does he love animals? Does she love science? This will get your child excited about reading!

Sample Question to ask:

What is the problem in your story? How do you know that?
